Options

Eyelets, Metal bar at bottom and top, Aluminum snap profiles, Pole pockets, Velcro

Polyester, approx 110 g. Lightweight and effective solution for showcasing your message. The printed design allows your graphics to be visible in reverse on the backside as well, enhancing visibility and providing a professional appearance.

Polyester, approx 205 g. This slightly denser polyester banner is a reliable solution for trade shows, store displays. It is sturdy enough to withstand various weather conditions, yet easy to handle and install. Its print-friendly features produce sharp and clear images, making it a cost-effective tool for communicating your message.

Block-out. Polyester banner with blockout properties, ensuring no transparency from the back. Ideal for trade shows, events and store windows advertising. Easy to handle, weather-resistant, and cost-effective.

Finishing

There are various hanging solutions when mounting fabric banners. As a standard, our fabric banners always come with a hem and double stitching.

Other hanging solutions include sewn channels for aluminum or wooden rods. Keder is a good alternative for exposed locations. Installation with keder requires a keder profile to be mounted on the wall.

Eyelet

In standard finishing, an eyelet is included every 50 centimeters.

Aluminum rod

Diameter: 20 mm
Length: Custom
up to 140 cm

Wooden rod

Diameter: 20 mm
Length: Custom
up to 140 cm

Metal rod with crocodile clips

A 4 mm metal rod is sewn into the hem, both at the top and bottom. Comes with crocodile clips at the top for mounting from the ceiling or on the wall.

Velcro

Sewn-on Velcro around the back of the banner. Corresponding Velcro, with double-sided adhesive tape for mounting on, for example, a wall, is sent separately on a roll.
