NANJING

In cooperation with Spennare, supplier of expo products.

Spennare designs, manufactures and sells trade show products such as Roll ups, Graphic walls, Counters, Beach Flags, Tents, Promotional furniture etc. The products are sold exclusively through dealers and thus we can offer service, sales and, representation in more than 50 countries.

The products are most often used in situations where the customer experience is a critical focus.

To better and more easily identify which product works best for you, the products are divided into three segments: Premium, Professional and Impact by Spennare.

IMPACT
by spennare

Impact by Spennare

is a segment of products that are quality controlled and cost effective. Suitable for projects with limited budget.

Spennare limited warranty

PROFESSIONAL
by spennare

Professional by Spennare

Professional are high functional quality products with custom design. Suitable for all types of projects.

Spennare limited lifetime warranty

PREMIUM
by spennare

Premium by Spennare

Premium are top of the line designed quality products. Suitable for all types of projects.

Spennare lifetime warranty

Artwork for print

All Spennare products have templates for download where the specifications for each product is specified. For most products, these general rules apply:

• Make sure the document's color mode is set to CMYK.

• That vector graphics, such as logos, are specified with spot color from

• Pantone's color library for coated print media (Pantone Solid Coated).

• Images should have a resolution of around 80 ppi at a scale of 1:1.

• Ensure images are converted to CMYK profile.

• We print based on the CMYK profile Fogra 39.

• Convert text to paths. Alternatively, ensure that the font is embedded

• in the print-ready PDF.

• Save print-ready PDF in PDF version 1.4 or later version.

• Check the box to save with layers.

Graphic support

In need of graphic support? We help our customers create print files and other graphic layout work. This will be charged on the invoice as a separate line.

To save both time and your budget, have a clear vision and all necessary hi res images in hand.

Answer three questions

1. **Are there any specific colors and fonts you want to use in your communication?**

   Colors should be entered in the form of CMYK code or Pantone. Fonts should be specified and provided as requested.

2. **Should there be a message in the form text, graphics or photo?**

   Attach material in the email. Alternatively, send via a file transfer service.

   As for the text, everything should be proofread prior to being sent. Graphic elements such as the logo, icons or illustrations should be vectorized and as you want to use them. Pictures must be high resolution.

3. **Further information requested:**

   a) Best contact for any project related questions.

   b) Delivery date; Please specify if the date is firm or if the delivery can take place beforehand.

   c) Delivery address; Please provide the full address along with contact name and number.

Delivery

We will present a proposal based on the information provided to us. The deliverable is provided for approval and will be edited based on feedback. Once final approval is given, we will start the printing process and we will deliver the finished product to your specified delivery address.

From order to delivery
– here is how it works!
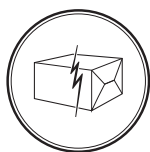

Shipping

Shipping costs are a normal part of most orders. The cost will be included on the final invoice. Our clients also have the choice of providing their own FedEx/UPS account # or freight carrier. Exceptions for some specific products with longer lead time.

Damage

Visible transport damages must be noted immediately on the transport driver's hand scanner. Visible and hidden transport damage must be reported to Spennare within 7 days of receipt.

Returns & complaints

To return an unused product, or to file a complaint please email us: info@spennare.com

Guarantee

We at Spennare guarantee that products from KG Spennare AB are without defect in materials or workmanship, provided that, the product is installed and completed correctly by the dealer and properly handled by the end user. At Spennare's discretion the defective item will be either repaired or replaced.

Roll Up Luna
60 | 85 | 100

A Roll up with a wide brushed aluminum base. This is the Spennare Roll up for clients who prefer a Roll up without a swivel foot, instead the cassette has the shape of a halfmoon. The telescopic pole allows for any height from 160-225cm. The clamp profile makes graphic change easy. Comes in a durable nylon bag.

Covered by Spennare's Lifetime Warranty.

Graphic walls

Flextile
80 | 100 | 120

A revolutionary portable modular system! Multiple patents and awards for design and engineering. The Flextile frames can be folded and unfolded with the printed fabric mounted on the frame. Once the graphic is installed you never have to remove it or reinstall it again! Stack vertically and connect horizontally, simple and intuitive but very capable. Build everything from a simple tabletop, to a larger backwall, to towers, to counters, to larger spaces. Each carry bag can hold up to 4 frames, 4 connector rods, 4 foot rods, and 1 top connector.

Covered by Spennare's Lifetime Warranty.

> **Easy to build and modify**

> **Modular and flexible**

> **Award winning design**

reddot design award winner

iF DESIGN AWARD 2019
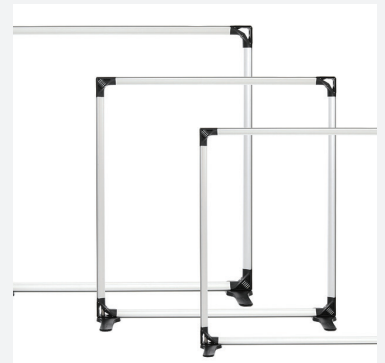

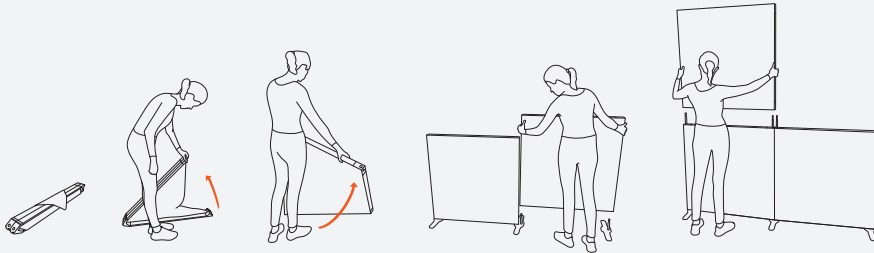

Multiple options

Using the same amount of frames you can alter your Flextile in the best way suitable for a specific event and provided space. Create different configurations and combinations, a straight back wall can also convert to multiple tabletops, or separate displays and a tower.

Flextile is the ultimate solution for messaging flexibility since you can choose between below options for printed graphics.

One graphic per frame

The easiest set up. The graphics are already installed in the frames. Assemble a small display in just a few minutes.

One graphic over several frames

A larger graphic that spans across multiple frames, front only or double sided. The SEG graphic inserts easily into the grooves of the frames.

Double sided pillow case

The pillow case graphic pulls over the Flextile display using a stretch fabric. No more rounded corners, no more pile of aluminum pipes. A pillow case display made simpler and better.
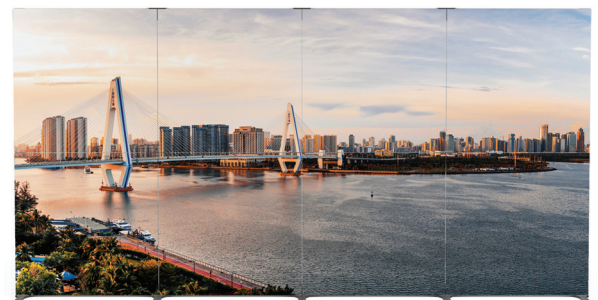

Create a wider image by adding more frames

4 pieces Flextile frames

6 pieces Flextile frames

8 pieces Flextile frames

The greatness of Flextile - countless configurations

With the same number of frames, there are several possibilities. Here you see a selection of configurations you can build. The size and floor space required depend not only on the number of frames but also on the frame size you start with. On spennare.com, you can find even more possible configurations. There, you can also create sketches with your own artwork on the wall.

Sketch with your own image on the Flextile wall

Banner
Custom size

Tailor-made banners for different occasions but a variety of suspension options. We offer several different materials with specific properties that are good for different conditions, such as facades, fences, walls and wind protection. Here are the most common banner materials we produce.

Options	Eyelets, Keder list, wooden pole, Velcro

Frontlite: Fire-rated smooth banner. With high UV resistance requirements, this banner is durable and weather-resistant, making it ideal for outdoor use.

Mesh: Banner material made of perforated mesh fabric. Perfect for buildings, fences, and exposed areas where air permeability is crucial. Fire-rated with high UV resistance requirements. Suitable for both temporary and long-term use.

PVC fri NonWoven: Pressed textile in 150 g Polyester. Suitable as fence banners or pallet covers. It's durable and can withstand water and exposed environments. Use for events or construction sites where you want to create a border around an area.

The GREEN alternative

Fairlyn Mesh®: An environmentally friendly alternative to PVC banners that has the same good quality and function. Made of 100% polyester without toxic solvents and heavy metals. Stronger and more elastic than PVC Mesh and better suited for colder climates because it does not stiffen and crack as easily from the cold.

Stronger and more elastic than PVC Mesh.
Weight reduced by 30%. Fast installation and less damage to the facade.

| Material	3–5 m²	5–25 m²	25-100 m²
Banderoll, Frontlite Standard	35,2 €	26,4 €	23,8 €
Banderoll, Mesh Standard	35,2 €	26,4 €	23,8 €
Banderoll, Fairlyn Mesh	49,6 €	37,2 €	33,5 €
Banderoll, Non Woven	35,2 €	21,1 €	19,0 €

Banner
Finishing

There are various suspension solutions when you are going to mount banners. As a standard, our banners come with edge reinforcement and eyelets every 50 centimeters.
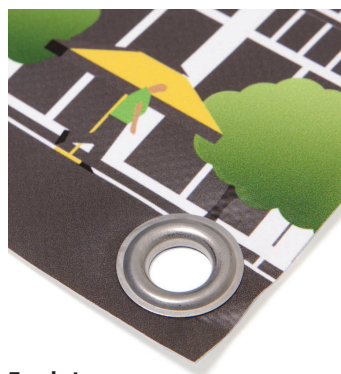

Other hanging solutions include sewn channels for aluminum or wooden rods. Keder is a good alternative for exposed locations. Installation with keder requires a keder profile to be mounted on the wall.

Standard finishing of banners included in the m^2 price
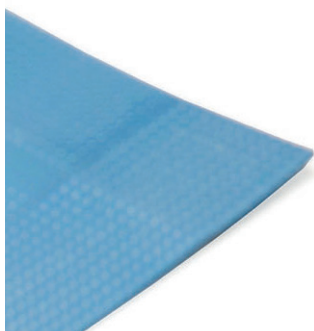

Edge reinforcement
Double-folded material welded to a sturdy edge.

Eyelet
In standard finishing, an eyelet is included every 50 centimeters.

Common suspension solutions to choose from at extra cost

Keder
Diameter: 7,5 mm
Length: Custom

Channel
Sewn channel at top and bottom for mounting and suspension with rod.

Fabric Banner
Custom size

PVC-free banners made of polyester fabric. Hang a message from the ceiling or attach to the wall.

We offer several different materials with specific properties that fulfills various requirements. Everything from decorating a whole exhibition wall to ceiling hung options. Or even parade flags!

The most common materials we make fabric banners from are polyester (approx 110g) and polyester (approx 205g).

> **Fire retardant B1**

> **High print quality**

> **Custom shapes**

Options	Eyelets, Metal bar at bottom and top, Aluminum snap profiles, Pole pockets, Velcro

Polyester, approx 110 g. Lightweight and effective solution for showcasing your message. The printed design allows your graphics to be visible in reverse on the backside as well, enhancing visibility and providing a professional appearance.

Polyester, approx 205 g. This slightly denser polyester banner is a reliable solution for trade shows, store displays. It is sturdy enough to withstand various weather conditions, yet easy to handle and install. Its print-friendly features produce sharp and clear images, making it a cost-effective tool for communicating your message.

Block-out. Polyester banner with blockout properties, ensuring no transparency from the back. Ideal for trade shows, events and store windows advertising. Easy to handle, weather-resistant, and cost-effective.
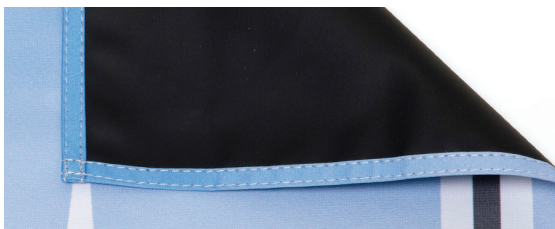

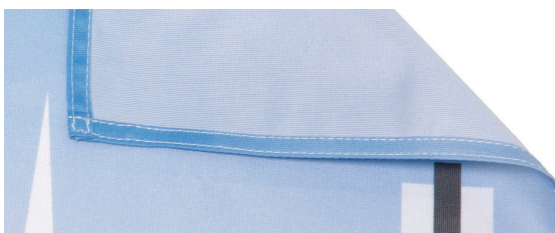

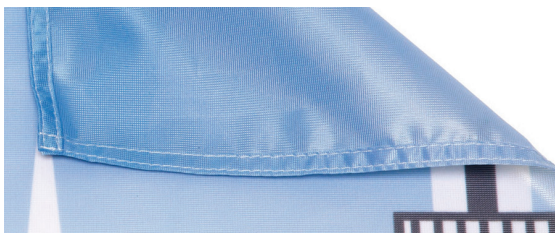

Material	3–5 m^2	5–25 m^2	25-100 m^2
Fabric Banner 110 g	32,0 €	24,0 €	21,6 €
Fabric Banner 205 g	41,6 €	31,2 €	28,1 €

Fabric banner
Finishing

There are various hanging solutions when mounting fabric banners. As a standard, our fabric banners always come with a hem and double stitching.

Other hanging solutions include sewn channels for aluminum or wooden rods. Keder is a good alternative for exposed locations. Installation with keder requires a keder profile to be mounted on the wall.
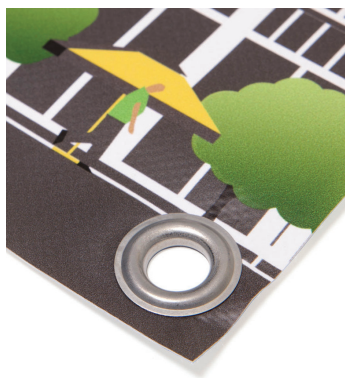

Eyelet

In standard finishing, an eyelet is included every 50 centimeters.

Aluminum rod

Diameter: 20 mm
Length: Custom
up to 140 cm

Wooden rod

Diameter: 20 mm
Length: Custom
up to 140 cm

Metal rod with crocodile clips

A 4 mm metal rod is sewn into the hem, both at the top and bottom. Comes with crocodile clips at the top for mounting from the ceiling or on the wall.

Velcro

Sewn-on Velcro around the back of the banner. Corresponding Velcro, with double-sided adhesive tape for mounting on, for example, a wall, is sent separately on a roll.

Event mat

Dye sublimation printed mats in different materials for effective exposure on the floor. All floor mats can be figure cut, jointed or pattern fit for large areas.

Filt: Semi-soft mat with limited service life. Suitable for promotions and trade shows. Height about 12 mm from floor. Maximum width in one piece 240 cm.

Tuft: Higher, tufted carpet with longer service life. Suitable for trade show booths and smaller carpets. Maximum width in one piece 190 cm.

Vinyl: Tougher mat with nice printing properties. Suitable for store environment and promotion. Maximum width of one piece 480 cm.

Advertizing flag
Custom size

Full color printed advertising flags of various sizes, shapes and configurations. Choose from our different materials according to need and use. All materials are printed with photographic print with 100% penetration so the subject is mirrored on the back. A flag is always delivered edge-reinforced with the associated suspension device according to what might be needed (incl. in the price). For larger quantities (at least 20 flags) we also offer screenprint on the same material. Ask for a quote!

Acc.	Eyelets, Metal bar at bottom and top Aluminum snap profiles, wooden pole A number of different types of hooks.
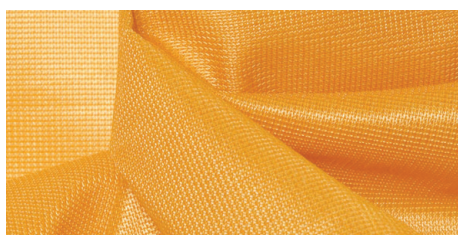

Supralon 110g: thin knit polyester. Suitable material for shorter campaigns and less exposed environments/situations. The edges are folded and sewn. Hooks and other clothing as desired.

Fairlyn Flag 115g: Environment-friendly alternative. Same product features as Supralon. Thinner knitted polyester made from recycled PET material (5 PET bottles per m2). Printed with water-based paint, without environmentally hazardous substances. The edges are folded and sewn. Hooks and other clothing as desired.

Marine Polyester 155gr: Woven polyester. A classic and strong flag material that can withstand greater stress. The edges are folded and sewn. Hooks and other clothing as desired.

Inflatable products

High quality inflatable products

Products marked with AirSeal by Spennare have remarkable quality. The products are easy to fill with air and thanks to the valves, the air stays in the tubes. The product keeps its stability and shape, no noisy fans required! The overpressure valves prevent overfilling helping avoid user error.

Full-color printed fabrics allow the entire surface to reflect the brand's vision.
